

IN CONFIDENCE

APPLICATION FOR MEDICAL POINTS IN SUPPORT OF HOUSING APPLICATION

This form should be completed if you have a housing application with either Shetland Islands Council (SIC) or Hjaltland Housing Association (HHA), and you, or a member of your household, feel your health is being affected by your current living conditions.

Where there is more than one person whose health is affected by your current accommodation, please complete one form for each person. Only the points for the person assessed in highest health need will be added to the housing application form.

Points will only be awarded where

- your health is adversely affected by your current housing circumstances, and a move to alternative accommodation would significantly help this

Please avoid giving any medical information not relevant to your housing situation as points will not be awarded

- solely for the presence of a health condition, regardless of its severity
- where there is a short-term illness or where you are expected to recover within 12 months
- solely for pregnancy

Additional Information

The Medical Points Panel is made up of senior officers from SIC Housing, HHA and Occupational Therapy. Health professionals may be consulted in complex cases, including GP, community mental health team etc. The panel can request a review of any assessment where a change of circumstance takes place. An example of this would be where a property adaptation has been completed.

The panel will recommend suitable property types for any future offer – i.e. single storey property, wet-room, wheelchair accessible etc.

An application will not be considered for re-assessment, unless there has been a significant deterioration in health which makes the accommodation unsuitable, and this has been confirmed by a health professional.

Medical Points available under this assessment;

Points Level SIC	Points Level HHA	Assessment information
0	0	The points award will take into account physical health, mental health and any learning disability. The panel will use this sliding scale to award medical points, but only where health is adversely affected by the property and where a move of accommodation would significantly help. For applications relating to physical health, the panel will consider the scope for adaptations to be completed within the existing property to alleviate the impact, as part of the assessment process.
20	10	
50	15	
75	20	
100	25	

Please complete all sections of the application form, including the declaration, which will permit us to contact relevant health professionals to assist in the assessment of your housing need. Please make contact if you require support to complete the form.

The completed form should be returned to the specific landlord, either:
